EDUCATION

Project Management

Universidad UNIR
Graduation: February 2025

Software Engineer

Universidad UNIR
2020-2023

Technology Degree in Mobile Application Development

SENA
2019-2020

Associate Degree in Software Analysis and Development

SENA
2017-2019

SKILLS

- ✓ Typescript
- ✓ Javascript
- ✓ React JS
- ✓ Next JS
- ✓ Node JS
- ✓ Jest
- ✓ React Native
- ✓ Azure
- ✓ AWS
- ✓ SQL
- ✓ Tailwind CSS
- ✓ Docker
- ✓ Java SpringBoot
- ✓ Angular

ABOUT ME

With 5 years of experience, I am self-driven and passionate, focused on personal and professional growth. I excel at taking ownership of projects and adapting to various situations, leading teams toward innovative solutions with an analytical approach. I constantly seek challenges and opportunities to lead and learn in an environment where everyone strives for improvement and collaboration toward common goals.

WORK EXPERIENCE

● Front-end Developer

Telefónica Colombia (through Stefanini, Disc IT, and VASS)   2022 - Current

Responsibilities

- Led the front-end development of 7 key applications for Telefónica Colombia, including "Paquetes," "Recargas," "Portabilidad," "Línea Nueva," and interactive games like "Trivias" and "Memorias," enhancing the user experience.
- Utilized React JS and Next JS for agile and efficient development of modern, responsive interfaces.
- Implemented continuous deployments with Docker and Kubernetes on Azure DevOps, optimizing scalability and development efficiency.

Collaboration with Consultancies

- **Stefanini:** Continued previous responsibilities, ensuring project excellence and continuity.
- **Disc IT:** Led key front-end innovations, emphasizing best practices and scalable functionalities.
- **Vass:** Ensured a seamless transition between consultancies, maintaining key roles and contributing to consistent project progress.

Key Achievements

- Delivered innovation and functionality in critical applications for Telefónica Colombia's operations.
- Earned recognition for maintaining project continuity during consultancy transitions, ensuring its ongoing success.

CERTIFICATION

⬢ **Certificate in Leadership**

MIU City University Miami

⬢ **Course Next JS 14**

Platzi

⬢ **Course of Git and Github**

Platzi

⬢ **Course of Tailwind CSS**

Platzi

⬢ **Course of GraphQL**

Platzi

⬢ **Course of SEO**

WORK EXPERIENCE

⬢ **Front-end Developer**

INDRA - ENAIRE   2022

- I developed the front-end interface for drone air traffic control using HTML, CSS, and JavaScript, enhancing interactivity and usability.
- I optimized the user experience and ensured effective integration with back-end systems.

⬢ **Full-stack Developer**

Prevalentware   2021

- I developed shipment management and e-commerce platforms, covering everything from design to final implementation, using NextJS and Prisma ORM.
- I programmed backend functionalities with Python, focusing on scalable and high-performance solutions.
- I managed deployment infrastructure on AWS, ensuring high availability and application security.

⬢ **Front-end Developer**

Grupo AFL - CS Studio   2020 - 2021

- Specialized in front-end development and maintenance of an internal management software, utilizing React JS and Material UI to innovate and optimize the user interface.
- Contributed to the design and development phase, ensuring visual cohesion and effectiveness while maintaining back-end functionality with Laravel.

⬢ **Fullstack Developer**

GEMDA   2019-2020

- Led the development of a Corporate Social Network for the accounting sector, utilizing React JS for the web and React Native for mobile applications.
- Focused on creating intuitive and functional interfaces, facilitating internal communication and collaboration through technology tailored to specific business needs.

⬢ **Intern**

Multiactiva El Roble   2019

- Contributed as an intern to the development of an inventory management platform using Java, enhancing processes within the cooperative.
